

Custom Photo Transfers

A Unique & Thoughtful Gift from The Paisley Farmhouse

Photo transferring is a unique printmaking process that will allow to get an enlarged copy of your favorite photo on a wood board (stained or unstained) or canvas.

Each photo transfer is unique and yields an interesting aged appearance. It can be done in color, sepia or black & white. There is absolutely no damage done to your original photo.

The process is simple:

1. You bring or email your photo to The Paisley Farmhouse and fill out the order form to choose size and color.
2. We transfer your photo onto canvas or wood board and transform it into a work of art and a lasting memory. We call you when the piece is ready (usually about 1-2 weeks).
3. You come pick up your original photo and your new photo transfer. You can now replace your original photo in its album and hang your new art on the wall or give it as a gift!
